DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Bierman (USPN 5,456,671)

3. Bierman discloses a retainer (20c) securing a medical device (200,22c) comprising a base surface, a proximal end, a distal end, a channel extending through, an opening, a pair of abutment surfaces and a pair of walls and a rectangular relief. The opening is coaxially aligned with the channel and has a diameter less than the diameter of the channel. The relief has a generally rectangular cross-sectional shape See Figure 11 and entire reference).

4. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Dailey (USPN 4,082,094)

5. Dailey discloses a retainer (34) securing a medical device (figure 2) comprising a base surface, a proximal end, a distal end, a channel extending through, an opening, a pair of abutment surfaces and a pair of walls and a rectangular relief. The opening is coaxially aligned with the channel and has a diameter less than the diameter of the channel. The relief has a generally rectangular cross-sectional shape See Figures 1, 3, 4, 7 and entire reference).

Double Patenting

The terminal disclaimer filed 12/14/07 has been approved and accepted.

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

The rejection in view of Gordon (USPN 4,250,880) has been withdrawn.
